

Avaya Embedded Voicemail

Avaya Embedded Voicemail delivers the following features and functionality:

- 4 Port Voicemail
- 15 hours message storage time
- Configurable record time: Default value 2 minutes, maximum value 3 minutes.
- Mailbox security codes ensure a minimum of 4 characters to be set.
- Multiple languages stored on the Flash Memory card.
- Help menus (via *4). Greetings and Mailbox Navigation.
- Receive an email containing either notification or the complete voicemail message from the Embedded Voicemail
- Voicemail Breakout/Personal Auto-Attendant: Up to 3 breakout numbers can be set up. When callers are directed to your mailbox, they can either leave a message or choose to be transferred to one of three numbers (e.g. Operator, mobile/cell phone, colleague, etc).
- Configurable system-wide short code for Voicemail collect (e.g. *17).
- 40 independent Auto Attendants with 3 time profiles per Auto Attendant.
- Up to 12 menu items per Auto Attendant with automatic time-out to fallback number.
- Reply to a message to either an internal or external number (if Caller ID available).
- Support for Hunt group announcements.
- Fax option for rerouting fax calls via the auto-attendant menu.
- Support for Fast Forward (#), Rewind (*), Skip message (9) and Call Sender (**) when listening to messages.
- No License required.
