

Avaya IP Office Contact Store License (Comcode 187166)

Standard Voicemail Pro supports automatic and or manual call recording to specified mailboxes. This license allows it to support a 3rd-party application to support the storage and administration of call recordings. Currently the supported application for this is ContactStore for IP Office. When used manual and or automatic records calls can be routed (along with the call details) to the ContactStore applications database for storage and retrieval when required.
